GOLD MEDAL

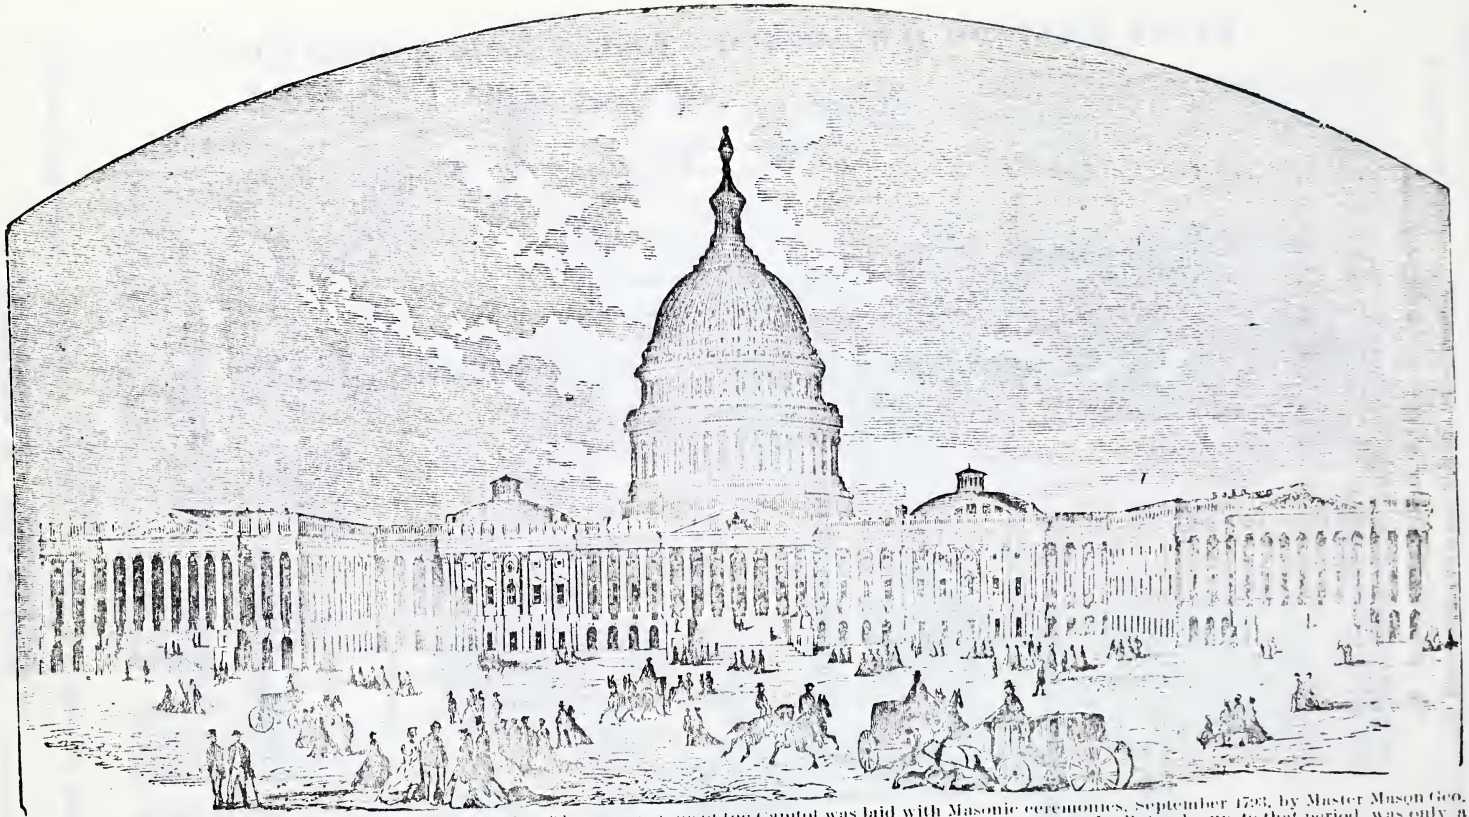
At Exposition, Atlanta, Ga., 1881.

Highest award at

Cincinnati Expositions since 1870,

And Wherever Competing.

Send for Circular.

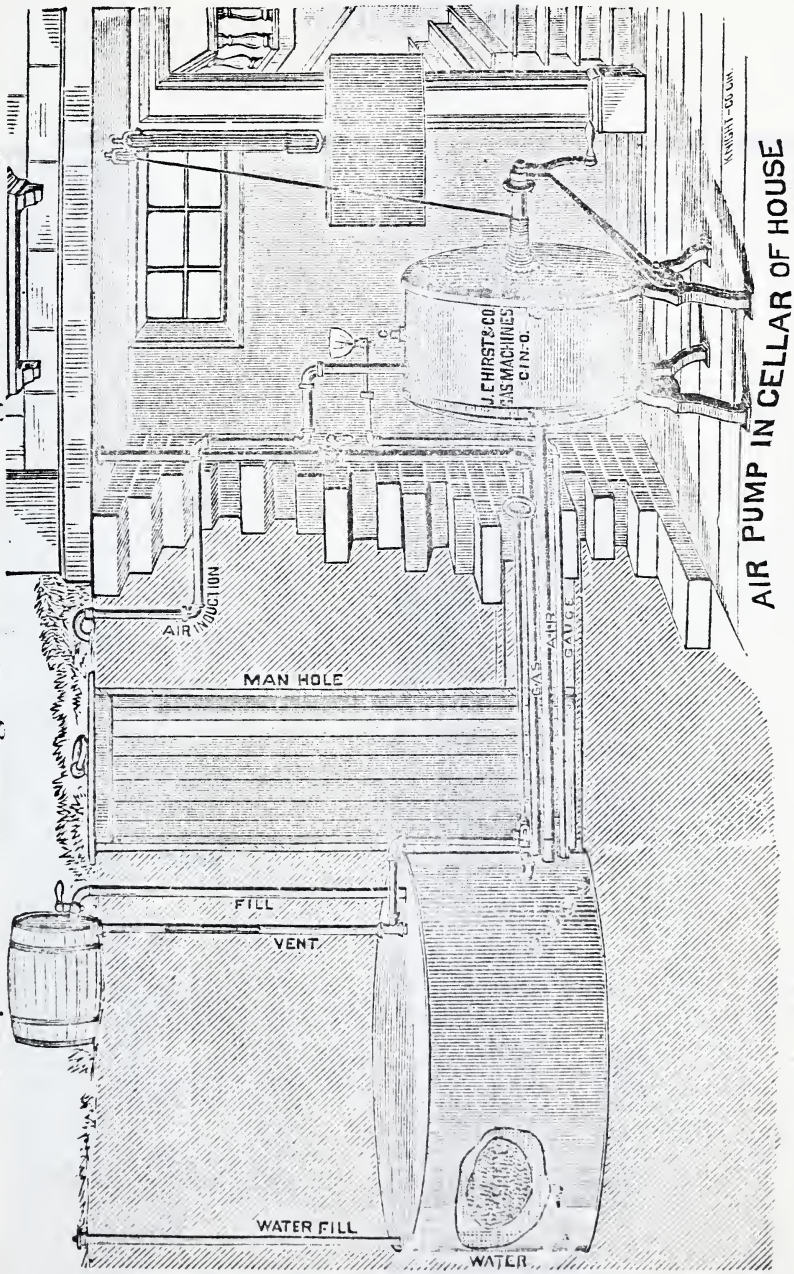


United States Capitol, Washington, D. C.—The corner stone of the Capitol was laid with Masonic ceremonies, September 1793, by Master Mason Geo. Washington, President of the United States. In 1814 the British burned out the two wings. The space now occupied by the Rotunda, up to that period, was only a wooden scaffolding, which united the two portions of the building. The foundation of the present Rotunda was laid March 2, 1818, and was considered finished in 1827. The corner-stone of the extension was laid July 4, 1851. The cost of the Capitol up to the present time has been $13,000,000. The whole Capitol covers an area of three and a half acres.

CHEAP LIGHT.

Gas 80c. per 1,000 cubic feet, suitable for Churches, Manufactories, Private Residences and Small Towns.

County and State Rights for Sale. Agents Wanted.



AIR PUMP IN CELLAR OF HOUSE

THE FAVORITE CARPET-SWEEPER.

It has an interpoise elastic **spring bale,** and **guard strips,** made of soft leather, around front of cover, which together prevent furniture from being marred or marked. The bottom of the Dust-Pan is **self-adjusting,** allowing it to run close to the floor, so that no dust can escape. The pan is emptied by simply turning the Sweeper on end and front. One of the greatest improvements is our new **drawn diagonal brush,** which is much more durable; bristles cannot come out; sweeps better; takes all the sand up as well as the dust. The **brush is longer** than the brush of any other Sweeper of the same length of case. An entirely new feature in Carpet-Sweepers is our **revolving comb,** which takes all the ravelings and hairs off the brush, and prevents any dirt going over with the brush and back on the floor. It keeps the brush always clean and free to sweep. It is the only Sweeper made that can be used successfully in sweeping sewing-rooms, dress-making and millinery shops, etc. It sweeps close to the mop-boards. It is only about **one-half** the **heft** of any of the old-style Sweepers. The bearings require no **oiling.** The Favorite is made two sizes. The smaller one sweeps 12 inches wide; the larger one, for hotels, halls, churches, steamboats, etc., sweeps 18 inches. Address for prices, etc., FAVORITE CARPET-SWEEPER COMPANY, Manufacturers, Grand Rapids, Mich., U. S. A.

AN ADDING MACHINE!

— FOR THE —

For the Accurate Computing of Accounts.

It is mathematically correct, and so simple that an office boy can use it in the largest trial balance. Over 10,000 already in use, including some of the first banks of the country.

All bookkeepers recognize the uncertainty of mental adding, and can but appreciate a machine that prevents mistakes and saves brain work. Composed entirely of brass and handsomely nickle plated. Sent with full instructions to any address, charges prepaid, on receipt of price, $5.00.

PEORIA, ILL.

The county seat of Peoria County, situated on the Illinois River, 192 miles above its mouth, and midway between St. Louis and Chicago. Railroads—Chicago, Burlington & Quincy; Chicago, Pekin & Southwestern; Illinois Midland; Indiana, Bloomington & Western; Peoria, Decatur & Evansville; Peoria & Springfield; Toledo, Peoria & Warsaw; Peoria, Pekin & Jacksonville; Chicago, Rock Island & Pacific; Rock Island & Peoria. Of the manufacturing interests the distilling industry is the most prominent, paying the largest revenue of any city in the U. S., and having the largest distillery in the world. There are also foundries, machine shops, malleable iron works, and in fact all branches of industry. Seven daily and three weekly newspapers: Dailies—Transcript, Freeman, Democrat, Demokrat (German), Journal, Review, Die Sonne (German); the weeklies—Saturday Evening Call, The Sun, and the Illinois Tradesman and Manufacturer published by J. A. Monger. The Freeman, although not long in the field, has obtained a substantial foothold. The Demokrat and Die Sonne are among the ablest edited German papers in America, and are liberally patronized.

SPRINGFIELD, ILL.

The Capital of the State and county seat of Sangamon County, 185 miles from Chicago, 112 miles from Quincy, 98 miles from St. Louis, Mo., and 215 miles from Cairo. Population, 19,746. Railroads—Chicago & Alton; Illinois Central; Ohio & Mississippi; Springfield & Northwestern; Wabash, St. Louis & Pacific. Business interests—Mercantile, manufacturing and agricultural. President Lincoln is buried here, and a handsome monument erected over his remains. The surrounding country is a fertile prairie, especially adapted to grain, fruit and stock. The hotels are commendable. The Revere House, E. S. Johnson, manager, is one of the most desirable, and well worthy of liberal patronage.

DR. HATHAWAY'S

Electro - Magnetic Chair.

The object of this invention (secured by Letters Patent No. 171,934, dated Jan. 11th, 1876) is to provide a simple and convenient apparatus for the transmission of electrical currents through all parts of the human body and in different directions. It consists of a chair (or a bed, lounge, or water bath may be used) provided with a suitable battery, wires and switches, by means of which currents of electricity may be passed through the body of the patient sitting therein, such currents being under the absolute control of the attendant, who can send them at will, first in one direction, and then in another, as desired.

The special application of this powerful remedial agent to any particular portions of the person has, thus far, been attended with great inconvenience. So far as known to me, it has never been done without the removal of the patient's clothing, and the passing of the current by means of a sponge or like substance over the surface of the body.

In using my apparatus, it is only necessary that the hands and feet should be bared. The patient sits comfortably in a chair, and when the switches are placed in a proper position, the current is made to enter the right foot, pass up the right leg, cross through the pelvis into the left leg, and down out of the body by the left foot. If now the switches be changed, the positive current enters the left foot, makes the circuit, and goes out of the right. In this way I am enabled to pass the electricity through the pelvic portions of the body, which heretofore it has been almost impossible to reach.

In a similar manner, the proper connections being made, the currents will enter the body by either hand, pass up the arm, cross the thorax to the other arm, and leave by the opposite hand. The switches may also be placed so that the electricity will enter both hands, pass through the entire system, and out by both feet.

The management of this apparatus is easily learned, and as the changes are made at intervals of five minutes, one attendant can, without difficulty, attend to four chairs at the same time. For full instructions and price, address

State Capitol, Montpelier, Vt.—The building stands on an elevated site about 325 feet North of State St., on which it fronts about 35 feet. It is in the form of a cross, fronting 86 feet 4 inches; ornamented with a portico, supported by six columns, six feet in diameter. The whole length of the building, including centre and wings, covers a space of 188 feet 4 inches. The former State House was finished in 1838, and was destroyed by fire January 6, 1857. The present building was completed October 13th, 1859, at a total cost, including furnishing, and $2,000 for a statue of Ethan Allen, of $148,396.63, of which sum $44,446.82 was given by the citizens of Montpelier, and the balance of the total amount was paid by the State.

THE HOME SEMINARY,

MRS. MARTHA W. HAKES, Principal.

ROCK ISLAND, ILL.

Boarding and Day School

FOR YOUNG LADIES.

Too much cannot be said in favor of the value of young ladies being trained morally, if not religiously, while receiving at a day or boarding school their secular education. In view of this indisputable fact, Rock Island is one of the few western cities which may be considered fortunate in the matter of the higher moral and secular education her daughters and others receive at the above well-governed, prosperous and popular institution. Mrs. M. W. Hakes, a lady endorsed by highest references, of large experience in teaching in the East, of unusual ability in the dispensation and modes of instruction, supported by an efficient corps of teachers in the various departments, acted wisely in selecting this city as the location for establishing a school of the highest order, and which has now been in active and successful operation since September, 1880. She thus affords a near and safe home school to all those parents who dread (and rightly too) to send their daughters to a distance for education; such a school that they may feel sure it will combine the rare culture of true education, in its widest and best sense, with the influence of a well-ordered home. The mental, moral and physical training of those committed to her care will be diligently and faithfully pursued, and they will find in her both mother and friend. We understand it is the purpose of the Principal to add to the accommodations and resources of the school as rapidly as the needs of the vicinity are apparent, that this school may grow to rank as the first in the Mississippi Valley. At present the number of family pupils is limited so that each may enjoy the influence of the family as well as the mental culture of the school. Rock Island has great natural advantages, and, with her usual public spirit, may become the possessor of one of the largest and best seminaries in the West at an early day. It is peculiarly apapted to such an institution by reason of its location on the banks of the Mississippi, midway between St. Paul and St. Louis, making it a delightful and easy matter for pupils to reach the school by boat or otherwise from any of the adjoining States. Rock Island is noted for the culture of its people, and the fact of its having excellent and numerous public schools and library, together with its fine location and enterprise, renders it an exceedingly desirable location for a ladies' school. The close proximity to Davenport and Moline affords these cities also equal opportunities, which we understand are being taken advantage of by parents sending their daughters to this more than ordinary educational institution.

The Washington Elm, Cambridge, Mass.—Not far from the College grounds stands one of the famous trees of the country—the Washington Elm—the only known survivor of the ancient forest that originally covered this part of Cambridge. It was under this tree that General George Washington took command of the Continental army, on the morning of July 3d, 1775. A neat fence surrounds this giant of the ancient forests, and an inscription commemorates the important event, which was the most interesting in its centuries of existence

Bettie Stuart Institute,

SPRINGFIELD, ILLINOIS.

A Family Boarding and Day School

FOR YOUNG LADIES AND CHILDREN.

Besides a full course, Classical and English, German is given free of charge to regular pupils. Vocal and Instrumental Music, Drawing, Painting in oil and water colors, and on China, are thoroughly taught. Elocution also receives special attention. For catalogue apply to

MRS. M. McKEE HOMES, Principal.

MRS. HOMES:—Dear Madam—It gives me pleasure to speak a word of commendation in behalf of your excellent school, THE BETTIE STUART INSTITUTE. I am satisfied, from careful observation, that your well-qualified teachers most thoroughly and conscientiously perform their duties; and judging from the satisfactory progress made by my daughter, during her three years' attendance at the Institute, am convinced that your pupils have every facility and encouragement for acquiring a thorough education.

SPRINGFIELD, June, 1881. MRS. MARY J. SELBY.

I believe no seminary or college of the country offers superior advantages to young ladies.

Yours very truly, J. A. CHESNUT.

For two years two of my children have attended the BETTIE STUART INSTITUTE. I am in all respects greatly pleased. In the thirty years in which I have had children attending various schools, I have never been better pleased. Their progress in their studies was entirely satisfactory. The care and watchfulness exercised over their general deportment was worthy of all praise. I wish to express my hearty approval of the Institute as conducted by Mrs. Homes.

JAMES H. NOBLE,

SPRINGFIELD, ILL., June 25, 1879. Formerly Pastor of First Methodist Church.

I take pleasure in certifying that in every respect the BETTIE STUART INSTITUTE is worthy the patronage and support of the citizens of Springfield, and the friends of education abroad. It is under the control of an experienced Principal, who calls to her aid a fine class of efficient teachers. The scholarship is thorough, and the government of the school excellent.

W. K. McELFRESH,

SPRINGFIELD, ILL. Presiding Elder M. E. Church, Danville Dist.

MRS. M. MCKEE HOMES:—Acting in the accredited capacity of Examiners, we beg leave to submit to you the following report on the examinations of the BETTIE STUART INSTITUTE for the scholastic year, ending May 31st, 1878. We do but state a well known fact when we say that, in the final analysis, we found the pupils thoroughly trained in all that pertains, in the best sense, to mental and moral training and culture, and that they reflected no small credit upon themselves and the institution. It was a constant matter of surprise and comment to observe the high degree of merit evinced in the simpler as well as more subtle element of instruction. * * * The results far surpassed ordinary expectation—an expectation founded on a superior standard of excellence.

PHILIP GRAEF,
Formerly Pastor of the Eng. Lutheran Church.

C. W. CLARK,
Formerly Pastor of the 2d Baptist Church.

* * * * * * The moral and spiritual influence of the school is very good indeed.

E. S. McMICHAEL,
Pastor Third Presbyterian Church.

The Quincy Herald

Is the leading Democratic paper in the State of Illinois. It has a larger circulation than any other paper in the State outside of Chicago. It owes its prosperity to its fearless exposure and denunciation of Republican thieves, and to its advocacy of Bourbon Democracy. It refuses to bow down before any windstorm of slop and slush which the canting, hypocritical party of step-ladder virtue and assassination morality can raise. It refuses to saint Republican thieves dead, because Republican thieves living demand it. Its detestation of the atrocious criminals who stole the Presidency in 1876 restrains it from eulogizing any one of them when he is called hence to his account in The Land of The Morning. Death brings no atonement for the infamous conspirators of 1876. No amount of sentimental cant, nor no amount of bulldozing, by the Credit-Mobilier, salary grabbing, DeGol'er gobbling, navy robbing, custom-house swindling, post-traderships-selling, whisky-ring-pilfering, electoral-conspirfng, star-route stealing, suffrage debauching, ballot-box stuffing, can induce the HERALD to help them to lie away the black record they have made. By the record they have made must they be judged.

The HERALD is made for Bourbon Democrats, rock-ribbed and mountain buttressed. If you want plain talk and no foolishness—if you can stand your Democracy undiluted, send for it. That there are such Democrats in the land is proved by the fact that we are adding, on an average, 800 subscribers to our list every month.

JAS. BENSON'S GUARANTEE

Steam Jet Pumps.

Certain & Uniform in their Operation.

The only pump that will pump sandy or impure water without injury. WILL NOT FREEZE. Have been successfully in use for the last eight years. Over 6,000 in daily use. They are in every State of the Union, and also in Canada. They are made to suit all requirements in mills, factories, breweries, distilleries, railroad tanks, mines, quarries, tanner's, gas, acid and oil works, and to take the place of the cold water pumps now in use.

These pumps are made of the very best material. They can be placed a long distance from the boiler if necessary, and have proved of great value where other pumps could not be used. They will work as well under the water as out of the water. A special guarantee with each Jet sold to purchasers of pumps.

SOUTH BEND, IND.

The county seat of St. Joseph county, the third largest manufacturing city in the State, located on the St. Joseph river, 85 miles east of Chicago, and 160 miles north of Indianapolis. The St. Joseph river furnishes a water power that no other stream in Indiana can compete with. Railroads—Chicago and Grand Trunk; Lake Shore and Michigan Southern; Michigan Central. Population, 13,325, an increase of over 100 per cent. since 1870. The city supports four banks, two national and two savings; several churches of different denominations, and seven hotels, among which the St. James and Oliver are the best, and are both decidedly first-class in every respect.

W. W. GRANGER, Expert Accountant.

Complicated and confused accounts, accounts of Executors and Trustees, and those of estates in assignment and process of liquidation, thoroughly investigated. Books of individual or partnership concerns accurately and rapidly inspected, and existing errors, if any, corrected. Partnership settlements arranged, and accounts between disagreeing partners satisfactorily and equitably adjusted. Grand balance sheets made out so as to show, in detail, the resources and liabilities, and the gains and losses, of the business of any firm or individual. Book-keepers assisted in getting off their trial balances. Books opened and closed. Books kept by single entry converted into double entry without buying new books. Books written up and posted by the month or year, in beautiful style, at the merchant's store, or at my own private counting rooms, and under my personal supervision, by trustworthy and practical accountants in my employ, and for reasonable compensation; and the correctness of the work will be guaranteed.

Send for Circulars.

CHARLES E. ADAMSON, Senate Block, **Muncie, Ind.**

THE GOSHEN
Galvanized Iron Pump

THE BEST AND CHEAPEST.

Drake's Patent Galvanized Wrought Iron Pump

Is the best in the world for farmers' and domestic use, and can be kept in order by any one. This pump will **LAST A LIFETIME** with proper care. Will neither Check nor Rot. Guaranteed to throw as much water as any pump made of same sized cylinder. The sucker can be taken out at the top for repairs.

The valve-seat is so arranged that it can be repaired in ten minutes, as will be seen by the cut.

Nos. 1 and 1 are specially intended for family use where several are to be supplied, being perfectly safe in cold weather, and insuring cool water in warm weather. By putting on another bucket while using a good deal of water, it will stand up to the spout; or by pulling out the pin on top of the wire spring, the water will stay up all the time, if desired.

Is arranged to attach to Wind Mill in a few minutes' time, and handle may be detached if desired. Our object has been to get up a Pump, simple in construction, of Iron, that would take the place of wood, and be cheaper in the end. By the decision of 200 good judges it is accomplished. During the past hard winter not one of these pumps has bursted. All in use give perfect satisfaction. Can be put on iron or wood tubing in drive or open wells.

For wells 40 feet deep or over, we make Extension to Suckers, or Reducer to Suckers, as desired, to suit customers. All are Galvanized Iron, with polished or enameled cylinders.

Having all the facilities, we will furnish or put in driven or open wells. Orders promptly filled to the home trade.

Factory in basement of Drake's Building, Main street, Goshen, Ind. Discount to the trade. For particulars, address

TRADE MARK.

THE REMEDY WHICH HAS NO EQUAL.

TRINKLE'S
AGUE TONIC.

It is a harmless and certain cure for Chills and Fever. It is warranted free from arsenic or quinine, or any other drug that will harm the most delicate constitution, and is so safe and wholesome that it can be taken from the bottle, or the prescribed dose doubled two or three times with perfect safety, from the fact that it is the most pleasant Chill Remedy to take ever compounded, and is so reliable, never failing to cure chills if directions are followed. In sections where it is known it is used in preference to any other medicine. A fair trial is all we ask to prove TRINKLE'S AGUE TONIC to be harmless, and never failing to effect a cure. No trouble for children to take, as it is a pleasant medicine. It has succeeded where all other remedies entirely failed, breaking up chills and performing a complete cure. Directions on inside.

Price $1.00. Manufactured by C. C. TRINKLE, Terre Haute, Ind.

Lewis Lockwood,

MANUFACTURER OF

PATENT LEGS & ARMS.

Opposite the Post Office, TERRE HAUTE, IND.

NINE REASONS WHY

THE MUNCIE SKATE

Is Superior to all Others.

1st, It is the only Adjustable Bottom Skate manufactured; 2d, It can be changed from one size to another instantly; 3d, It is equal to FOUR pairs of any other skate; 4th, It has met with greater success than all others combined; 5th, It is the most simple; 6th, It is the most durable; 7th, It can be made plain or scientific; 8th, It is the ONLY practical Rink Skate in America; 9th, It is endorsed by the finest experts and professionals in the World as being the finest movement.

TESTIMONIALS.

[Champion of North-west.] CHICAGO, ILL., June 13, 1879.

Thad. A. Neely, Muncie, Ind.:—I did not try your skates until last night, and I am willing to skate on them in preference to ANY skate made. The ROCK to the skate is FINE, and I MUST say that I can skate the rolls with more ease and grace than on any other skate made, my ice skate included. Yours truly, J. M. COOK.

[Manager Brooklyn, New York, Rink]

BROOKLYN, N. Y., July 29, 1879.

Thad. A. Neely, Muncie, Ind.:—The skates have been received, tried at the rink by experts, and are approved.

Yours truly, ROBERT BUSSING.

[Philadelphia Roller Skating Co.]

Office of Roller Skating Co., PHILADELPHIA, Nov. 18, 1879.

Thad. A. Neely, Muncie, Ind.:—After a thorough trial we think the skate a very good one. Please give us your terms to agents. Yours truly, W. T. SEAL, Sec'y.

PHILADELPHIA, PA.

Thad. A. Neely:—Have had the pleasure recently of skating upon your skates. I have skated as a professional for ten years, using during that time different skates, but find your skate far superior to any, and shall use them exclusively hereafter. Yours truly, W. R. GOODALL.

ROME, GA., Oct. 12, 1880.

Mr. Thad. A. Neely, Muncie, Ind.:—Dear Sir—I have been in the roller skating business for eight years, and during that time have tried many different skates, but find the MUNCIE SKATE much superior to all others for general use. Very respectfully, O. D. CHARLES.

What the Champion Solo Skater of America says:

I have used and thoroughly tried ALL the various makes of Roller Skates, and I am FREE TO SAY that Thad. A. Neely's MUNCIE SKATE caps the climax. They are the most durable and simple I ever used, and are beyond a QUESTION OF DOUBT the BEST in the market for rink managers or scientific skating. E. A. ESTERBROOK, Dayton, O.

September 7th, 1881.

☞ I am the sole manufacturer and owner of patents of the Muncie Skate, and the Improved Muncie Skate. None genuine unless they have MY NAME on the skate. By addressing Thad. A. Neely, Muncie, Ind., you will get the genuine.

Teetor's Improved

Diamond Millstone Dresser.

Patented in Different Countries.

Patented in U. S. A., October 5, 1880. Reissued, August 30, 1881.

This is a first class machine, the result of a ripe experience and practical observation of what is needed and most essential in a Millstone Dressing Machine. It is, really, a time-saving machine over all others of its class, because it is the most easily and quickly adjusted and regulated.

The feed can be instantly reversed while the carriage is in motion.

The feed can be increased or decreased while the carriage is in motion.

The feeder is movable and can be moved to any part of the stroke of the machine, to accommodate in short stroke work.

The guide frame can be tilted from side to side, for furrowing, which it does true to any angle. This guide frame can be adjusted so as to cut furrows more or less at the eye than at the skirt. Also for bosoming the buhr, or for cracking the face more or less at the eye than at the skirt. No screw driver or wrench is required with which to accomplish any of the adjustments and regulations above named.

The whole range of work ever required in millstone dressing is within the scope of this machine. There are no extra attachments required to accomplish the different kinds of work. It is a complete machine in itself. It has a circular disc clamp which holds the diamond as firmly as though it was solid setting. The diamond can be reset in a few moments' time. The guides are so shaped that the diamond is held firmly down to an even depth, so that the carriage will not wedge in the guides during the process of heavy work, like other machines.

The machine works on Buhrs running with or against the sun.

Manufactured by

BERTSCH & CO., Cambridge City, Ind.

CENTERVILLE, IOWA.

The county seat of Appanoose County, on the Southwestern division of the Chicago, Rock Island & Pacific, and the Peoria and Iowa division of the Wabash, St. Louis & Pacific Railroads, 138 miles from Davenport, 183 miles from Kansas City, and 90 miles from Keokuk. DAVENPORT, IOWA.

The county seat of Scott County, 347 miles north of St. Louis, and 183 miles west of Chicago. Population, 22,000. It has many manufacturing industries, lumber figuring conspicuously. Railroads—Chicago, Rock Island & Pacific; Chicago, Milwaukee & St. Paul. Business interests—Agricultural, mercantile and manufacturing, with good hotels, newspapers, and a thriving business community. The Mississippi River is crossed at this point by the government bridge. The U. S. arsenal and picturesque parks are located on Government Island. Davenport is enclosed by high bluffs, crowned with many fine residences, which command a fine view of the Mississippi. The city is itself finely situated on the river bank.

FORT DODGE, IOWA.

The county seat of Webster County, 191 miles west of Dubuque, 136 miles east of Sioux City and 87 miles northwest of Des Moines. Population, 3,700. Railroads—Illinois Central: Des Moines & Fort Dodge; Fort Dodge & Fort Ridgeley. Business interests—Mercantile, agricultural and coal. There are number of good hotels, the most prominent of which is the Fort Dodge House, H. T. Jewett & Sons, lessees, with Chas. E. Jewett and Willis in charge. The house is first-class in every respect. The new management has refitted and furnished it throughout, making it the hotel of the city. 20	25	WE WILL NOT BE UNDERSOLD.									15	10	5

USE BISHOP'S CASH CARD AND ADVERTISER

And you will find that you have a novel and attractive Business Card that will do you more good than Fifty Dollars the old way. I sell to only one man in a town doing the same business, so the house who first secures it can have quite an advantage over the houses competing. The first thousand, with your business card printed on the opposite side of the above card, with punch, sent C. O. D., for **TEN DOLLARS.** After the first thousand, FIVE DOLLARS a thousand. Parties remitting cash with order will have them sent free of charge. Reference: First National Bank of Red Oak. Address all orders to

TOPEKA, KANSAS.

The capital city of Kansas, located on the south bank of the Kansas River, in the northern central part of Shawnee County, of which it is the county seat. It is 63 miles from Leavenworth, 29 miles from Lawrence, 66 miles from Kansas City, and 50 miles from Atchison. Population, 24,000. Railroads—Union Pacific; Atchinson, Topeka & Santa Fe. The public and private buildings of Topeka will compare favorably with those of many older cities. The hotel accommodations are first-class. The college of the Sisters of Bethany is located here, and the public school system is unsurpassed.

WYANDOTTE, KANSAS.

The county seat of Wyandotte County, situated at the confluence of the Kansas and Missouri Rivers, and on the Missouri Pacific and the Kansas Pacific Railroads, 66 miles from Topeka and 286 miles from St. Louis. It is just across the river from Kansas City, and connected with the latter by street railways. It has several manufacturing establishments, and the State Asylum for the Blind is located here.

The Indispensable Bake Oven.

The Western Tower Clock Co., Leavenworth, Kansas, in connection with manufacturing large Clocks for Court Houses, Depots, Churches, Schools, etc., also manufacture a

Portable Galvanized Iron Reel BAKE OVEN,

For Bakers, Hotels, Cooking-cars, Mining and private family use. **The best Bread and Pastry Oven manufactured.**

It is an established fact, well known to bakers, that crackers cannot be successfully baked except in Reel Ovens, on account of the equal heat required. We have not only made many valuable improvements in the Reel Ovens, but have made them applicable to general use.

Bakers' sizes require from eight to ten pounds of wood to one hundred loaves of bread.

Send for descriptive Circular and Price List. Address

WESTERN TOWER CLOCK CO., Leavenworth, Kansas.

Jos. Whitaker, President. C. E. Spomer, Secretary.
J. H. Bebee, Superintendent.

ANN ARBOR, MICH.

The county seat of Washtenaw County, is situated on the Huron River, at the crossing of the M. C., Toledo & Ann Arbor and Grand Trunk Railroads, and is 38 miles west of Detroit and 234 miles from Chicago. The village plat was first recorded in 1824, and the town was incorporated in 1857. There are one daily and four weekly newspapers, two banks, a newly-erected court house, which cost $80,000. Population 8,500. There are three hotels; the principal of these is the Cook House, located centrally, and one of the best in Southern Michigan. The house is newly furnished throughout, and everything clean and neat. Mr. E. H. Hudson, the proprietor, and his gentlemanly clerk, Mr. Johnny Benedict, make the Cook House a comfortable home.

BIG RAPIDS, MICH.

The County seat of Mecosta County; Population 5,000; located on the Muskegon River, 56 miles north of Gand Rapids; incorporated as a city in 1869. Its railroads are Grand Rapids & Indiana, Big Rapids Branch of the Chicago & West Michigan, extending from here to Muskegon, where it joins the main line, and is the present terminus of the main line of the Detroit, Lansing & Northern. All kinds of lumber are largely manufactured here. There are a number of other manufacturing establishments of various kinds. The river furnishes a first-class water power, which is used by about one-half of the factories. Good schools and churches, one daily and three weekley papers. The prominent hotel is the Bracket House, the proprietor, Mr. M. S. Elwood, is a gentleman of taste and culture, and knows how to please the traveling public.

CHARLOTTE, MICH.

County seat of Eaton County, where the Chicago and Grand Trunk R. R. crosses the Grand Rapids Division of the Michigan Central; 191 miles from Chicago, 59 miles from Grand Rapids. Population 3,000. There are five churches, four schools, and three hotels. Most prominent among the latter is the Phenix House, W. H. Gaines, Proprietor. His boundless courtesy has made his house one of the most desirable houses for the traveling community. He has refitted and refurnished it, and his table is supplied with the best the market affords.

EAST SAGINAW, MICH.

EAST SAGINAW, MICH.,

Is the centre of the lumber and salt industries, and is located on the east bank of Saginaw river. This stream is navigable for the largest vessels. A large export business in salt, agricultural, and forest products makes the city one of the important commercial and manufacturing cities in the west. A line of commodious river steamers connects East Saginaw with Bay City by water, and regular lines of steamers run daily and weekly between Lake Huron shore points to Alpena and Mackinaw on the north and to Goderich, Port Huron, Detroit and Cleveland. Railroads, —Flint and Pere Marquette; Detroit, Saginaw and Bay City; Saginaw Valley and St. Louis; Chicago, Saginaw and Canada; and Jackson and Saginaw division of the Michigan Central; population 22,000.

GRAND RAPIDS, MICH.

County seat of Kent Co., Mich., situated on Grand River, 158 miles from Detroit and 31 miles from Grand Haven. It is next in size to Detroit, the principal city in the State. Population in 1870 was 16,000, and now has a population of 35,000. The city is principally indebted for its rapid growth, and great prosperity to (1) its location, (2) its fine water power, (3) its lumber interest, (4) its manufacturers, and (5) its wide awake enterprising people. The city is handsomely laid out on both sides of the Grand River, and covers a total area of 11 square miles. Its Railroads are, Chicago & West Michigan, Grand Rapids & Indiana and Michigan Central, which occupy the same depot; the Detroit, Grand Haven & Milwaukee, the Grand Rapids, Newaygo & Lake Shore, and the Lake Shore & Michigan Southern, occupy separate depots. Five banks, four daily newspapers, three first class hotels, viz.: Sweet's, Morton and Rathbnrn's, and three Opera Houses. Below is to be found a directory of the leading business firms:

Agricultural World & Mich. Homestead, 25 Canal.
Alabastine Co., M. B. Church, Man., 9 Ionia st.
Albee & Rasmussen, Livery, 142 Kent.

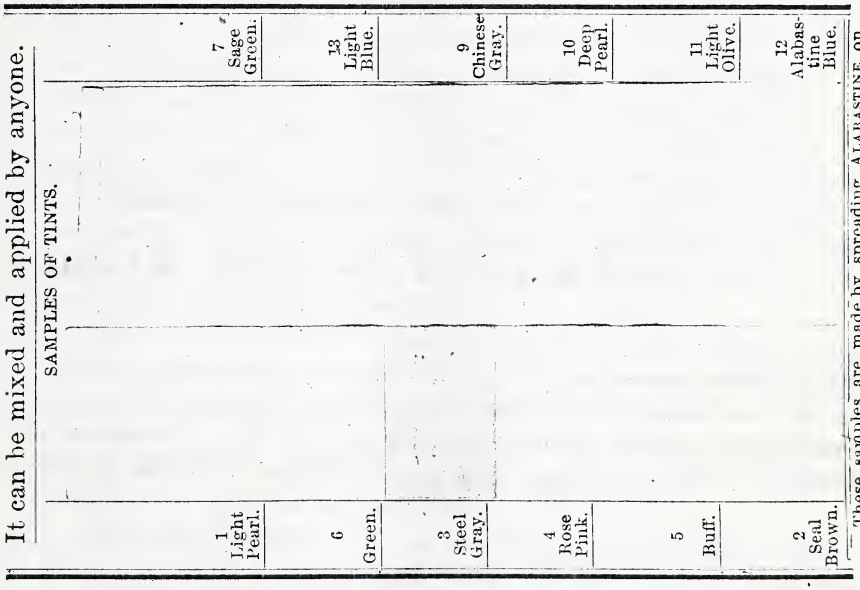
ALABASTINE,

A Superior Substitute for Kalsomine, Wall Paper, etc.

Alabastine is a Cement,

And is the Only Preparation based upon the proper principles to constitute a Durable Finish for Walls,

And Entirely Different from other Preparations Applied with a Brush.



Ready for Use by Adding Hot Water.

Fifty cents worth of ALABASTINE will cover 50 square yards of average wall with *two coats:* and *one coat* will produce *better* work than can be done with one coat of any other preparation, on the same surface.

ALABASTINE IS THE BEST FINISH FOR ALL THE FOLLOWING SURFACES

A Soiled "Hard-Finish,"

PAINTED WALLS, WOOD CEILINGS, OVER OLD WALL PAPER

On Brick, or on Rough Boards, Rough Plaster, etc.

WETTING ALABASTINE DOES NOT SPOT IT.

Put up in 5 lb. Packages, 20 in a case, and in Barrels and Half-Barrels.

MANUFACTURED ONLY BY THE

ALABASTINE CO.

Grand Rapids, Mich.

For Sale by Paint Dealers.

[See next page.]

ALABASTINE.

While Alabastining is superior to all other ways of refinishing walls, such as Kalsoming, Papering, Painting, etc., it is also the best, cheapest, and by far the most durable finish

FOR NEW WALLS,

On a Sand Finish or Brown Plaster.

It is well known that the finish known as "hard finish," or "putty coat," is not a durable one, and that many times it is soiled by workmen, and cracked by shrinking of timbers in the building, so as to require coating with something before the building is ready for occupancy, or soon after, as it is delicate and brittle and is put on good buildings before the finishing of woodwork, painting, etc., and before the building is thoroughly dried out from being dampened and swelled by the wet plastering. While the Alabastine finish can be applied the last thing before moving in the building, and the cracks invariably found in the "hard finish," are avoided.

The coat of Alabastine is thin and not designed to fill and smooth uneven plaster, but *one coat* of tint, or two of white, mixed the same as for other surfaces, produces a beautiful even finish, and the most durable, and may be renewed from time to time by inexperienced hands, and every additional coat adds to the strength of the wall; is hardened by age, and will not fade.

There are different ways of plastering walls for this Alabastine finish, according to the amount of expense and labor to be expended, as it will make a durable and handsome finish on one coat of common mortar floated off and made comparatively smooth, and a better one on a good smooth sand finish as usually made for nice papering. A good finish is made by putting on the first coat of ordinary mortar and after it is dry put on what a plasterer would call between a sand finish and a "browning" coat, and float it off good or trowel it. This latter, two coat work, may be made a first class wall by taking care to "gage" it just right with lime, (and sometimes a little stucco is used to set it,) smoothing it when it is set just enough to work well, etc.

A good man who is used to the brush, will put on from 300 to 400 square yards of this Alabastine finish in a day, on the new wall where only one coat is necessary, if tinted, and the material will not cost as much as the material usually used for the white coat of plaster.

The new work must be thoroughly dry before applying Alabastine.

For further information, directions, etc.,

HASTINGS, MICH.

The county seat of Barry, is located on the Grand Rapids Division of the Michigan Central, 32 miles East of Grand Rapids, and 140 miles West of Detroit; population, 2600. The land on which the town was built was originally owned by Eurotes P. Hastings. About the year 1836, a joint stock company, organized in Marshall, Mich., bought the land, and located the town. Five churches, one high-school, and two ward schools are here. Two hotels, chief of which is the Hastings House. That this is a first-class hotel is due to the superior capacity of the proprietor, Frank B. Littlefield. For courtesy and indefatigable attention to the comfort of his guests, he has no superior.

LANSING, MICH.

Lansing is the State Capital, nearly in the center of the State, on Horse Shoe Bend of Grand River. When the capital was located here in 1847, it was in a dense unbroken wilderness. Now it has raised to a city of 9,000 population, with all necessary public improvements, fifteen churches and one of the finest school buildings in Michigan. The State Reform School is located here; also the State Agricultural College and State School for the Blind. The city has four banks, nine hotels and several large manufactories. Below are the leading business houses :

DR JAS. C. KERR'S
GREAT SYSTEM RENOVATOR,
Preventative for Small Pox and Fevers.
ASK YOUR DRUGGIST FOR IT.

YIPSILANTI, MICH.

The second city in size in Wastenaw County. Population, 5,000. It is situated on the Huron River, at the crossing of the M. C. and the D. H. & S. W. R. Rs. The State Normal School is located here. The water power is most excellent, running a number of mills and factories, the most prominent of which are the paper manufactories, the largest in the State. There are three weekly newspapers and one National bank. The principal Hotel is the New Hawkins House. It is conducted in excellent style by W. H. Hawkins, proprietor.

Michigan State Building, Centennial Exposition, Philadelphia.

In the absence of any appropriation from the State, this building was erected mainly through the exertions of the Michigan State Centennial Board and Julius Hesse, the architect, at a cost of about $15,000. It is constructed entirely of Michigan lumber above the foundation. The inside, as well as the outside of the building is highly decorative. The walls and ceilings inside the building are paneled, no plastering being used, and the floors of several rooms are inlaid to neat patterns.

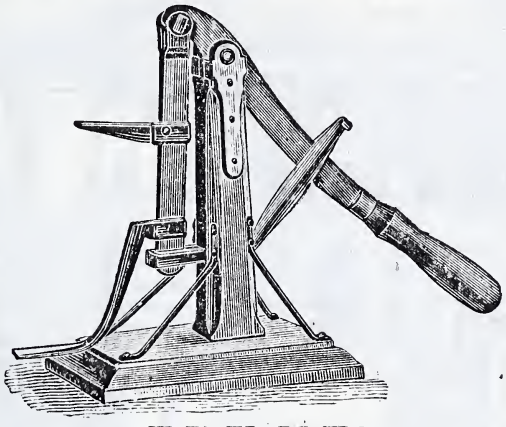
THE

Boss Lifting Jack.

ME

Adjusted to Height.

LOOK



OVER.

PATENTED JULY 19, 1881.
IMPROVED JULY 19, 1882.

TRY ME!

I AM THE JACK FOR THE PEOPLE!!!

The above Cut represents a new

Improved Lever, Adjustable Arm Lifting Jack,

Light, strong, simple. Most satisfactory in its action. Durable in its construction. Not liable to get out of order. Is easily and quickly adjusted to any object to be raised.

Can be put to more Uses than any Lifting Machine ever Invented.

It can be used for picking up the lightest stick or the heaviest saw log; the lightest carriage or the heaviest log truck, plantation wagon, omnibuses, threshing machines, portable steam engines, street or railroad cars, or raising railroad tracks.

AT SIGHT ITS SUPERIORITY IS CONVINCING.

MADE IN FOUR SIZES:

No. 1.	Carriages or livery stable size; weight,	6	pounds;	capacity,	1,000	pounds;	Price,	$2 50
" 2.	Wagons, omnibuses, or farm size; "	10	"	"	2,000	"	"	3 00
" 3.	Truck and plantation wagon size; "	14	"	"	3,000	"	"	3 50
4.	Street cars, portable engines, etc.; "	20	"	"	6,000	"	"	5 00

All requiring a light, handy Lifting Apparatus, this

HAS NO EQUAL.

A test is all that is required to fully establish all that is claimed for it. All orders for machines, or for Shop Rights or Territory, under the above Patent, addressed to

J. M. & S. M. BAIRD, Inventors and Proprietors,

Will receive Prompt Attention. A Liberal Discount to the Trade.

RED CLOVER AS A CURE FOR **CANCER.** By its merits alone, Red Clover has acquired a great reputation as a cure for Cancer. Many Cancers have been cured by its use, and in very many instances, but we do not claim that every Cancer can be cured; but even in those cases where cures can not be effected, its cost is as nothing, when compared with the relief obtained, and its power for prolonging life. We would be pleased to have you try our Extract of Red Clover for Cancer and other blood and skin diseases. Send for circular with testimonials.

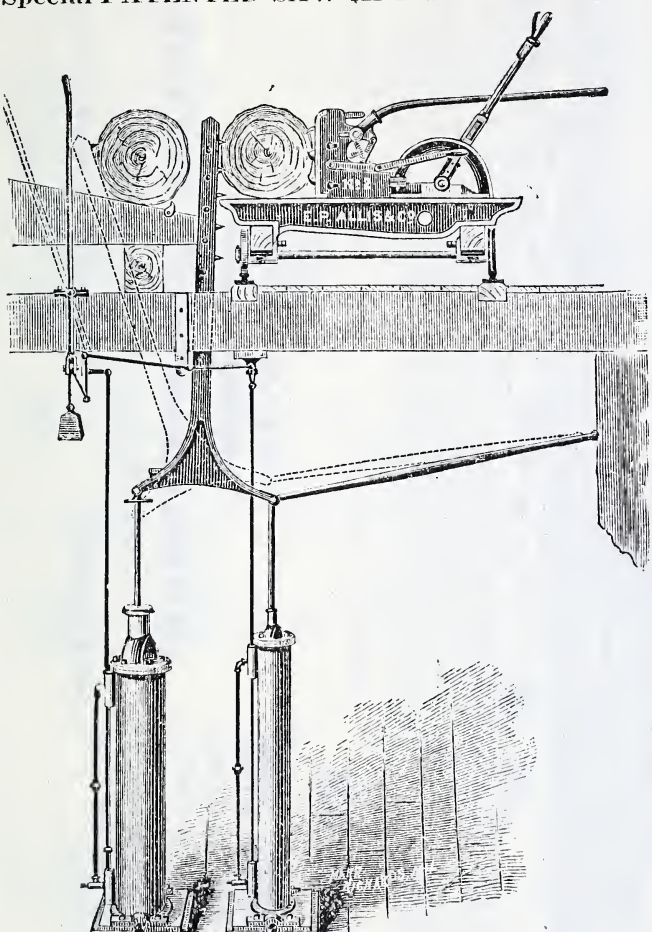
STEAM "NIGGER."

Patented October 26th, 1880, and August 9th, 1881.

Special PATENTED SAW AND SHINGLE MILL MACHINERY.



Greatest Improvement in Saw-Mill Machinery.

MILL MEN SAY IT IS A BIG THING.

Steam "Nigger," Steam Drag Saw, Rotary Steam Engine, New Improved Double Swivel, Eccentric Saw Guide, operated by hand-wheel near Sawyer. New Combined Bolter and Lath Machine. Lath Machine. Lath Packers, Shingle Bolters.

This cut and description is of our Improved Double-Acting Steam Log-Turner and Loader. It saves time—which is money Is durable, being made entirely of iron, steel and brass. It is very quickly and easily controlled. The Machine, being worked by direct steam, is elastic in its movements (thereby obviating the liability to breakage), which is a very desirable point in any machine. The toothed stock is made of forged Swedes iron, with hinged receding forged steel teeth, so constructed that when their points come in contact with a flat surface they recede back into the stock, and the teeth below said flat surface take hold of the round part of cant or log and turn it without tearing or marring it. The lever by which it is operated is so constructed that it will work either cylinder, singly or together, in the same direction or in opposite directions. If you wish to roll a log from log-way to mill-carriage, you move the lever in the direction you wish the toothed stock to move, in order to get it back of the log; then apply steam to the bottom of the large cylinder (using same lever), which causes the log to be rolled on to the carriage. This Machine has a strong power side movement, and when the log is turned with the flat side toward knees, you can press it up tight against them simply by moving lever in the direction you wish to press log or cant. By using this Machine your circular mill will saw from five to seven thousand feet more per each eleven hours, according to cutting capacity of mill. We guarantee this Machine to be first-class in workmanship, durability and utility. We have lately improved this Machine, making it by far the best in the market. We would be pleased to receive your order for one or more of the above Machines, feeling confident that it will give you entire satisfaction. TERMS CASH.

We Guarantee each Machine in every particular; also, that it will do all we claim for it.

PRICE OF MACHINES:

Double Cylinder Turner and Loader ..... $400.00 | Single Cylinder Turner $325.00

For Portable Mills:

Short Single Cylinder Machine ..... $275.00 | Four-Foot Double Cylinder Machine $350.00

New City Hall, Detroit.—The site of the New City Hall is on Campus Martius. The building is 200 feet long on Woodward avenue and Griswold street, and 90 feet wide on Fort street and Michigan avenue. It is three stories above the basement. The height from street to cornices at roof is 66 feet, and to the top of the tower 180. On the several sides of the first section of tower are figures representing "Justice," "Industry," "Arts," "Commerce." In this section is the clock, and above that the general fire alarm bell, and over it the lookout. The building was completed in July, 1871. The whole cost, including furniture, outside improvements, etc., was about $600,000.

FARIBAULT, MINN.

The county seat of Rice County, located on the Chicago, Milwaukee & St. Paul Railroad. Population, about 6,000. On the Bluffs east of Straight River, beautifully located are the Shattuck School, Seabury Divinity School, Imbecile School, Blind Institute, and Institute for Deaf and Dumb—the last named being one of the handsomest buildings in the State. There are 2 furniture factories, 2 foundries, 12 churches, and a good Fire Department; in fact, everything that is necessary to make it one of the best inland towns in the State. The following are the business men:

Andrews H. B., Carriages, Front & Elm.

MINNEAPOLIS, MINN.

The county seat of Hennepin County, situated on both sides of the Mississippi River, at the Falls of St. Anthony; the two divisions (East and West) connected by four magnificent bridges. Population, 46,877. Railroads—Minneapolis & St. Louis; St. Paul, Minneapolis & Manitoba—occupy same depot; Chicago, Milwaukee & St. Paul—occupies separate depot. Business interests—Manufacturing, lumber and agricultural. Hotels—Nicollet, Carle, St. James, National, Windsor, Merchants, Bellevue. Public Halls—Association, seats 800; Harmonia, seats 700; Harrison's, seats 500; Academy of Music, seats 1,400; Pence Opera House, seats 1,000; Theatre Comique, seats 600. Minneapolis is at the foot of navigation of the Upper Mississippi. It is a large manufacturing point, possessing one of the finest and largest available water powers in the world. It contains at the present time twenty-five granite flouring mills, having a capacity of over 20,000 bbls. of flour daily, with, at a fair estimate, an average actual production of 12,000 barrels; in addition to which some 50,000 tons of "mill stuff" annually. One of the mills is the largest in America. The increase in the lumber trade shows an annual shipment of over 140 million feet. The following are the names and addresses of those who, by their untiring efforts, indomitable will, and unceasing integrity, have made this beautiful city:

Academy of Medicine, 258 1st ave. S.
Adams G. E., Grocer, 629 Nicollet ave.
